It consists of the outstanding balance of government bonds and bills plus the outstanding direct credit facilities to the government by the banking system and non-bank sources minus central government banks deposits.	Ministry of Finance - Jordan
152	ES-Data 151	<b>Net official development assistance and official aid received (current Million US\$)</b>	Net official development assistance is disbursement flows (net of repayment of principal) that meet the DAC definition of ODA and are made to countries and territories on the DAC list of aid recipients. Net official aid refers to aid flows (net of repayments) from official donors to countries and territories in part II of the DAC list of recipients: more advanced countries of Central and Eastern Europe, the countries of the former Soviet Union, and certain advanced developing countries and territories. Official aid is provided under terms and conditions similar to those for ODA. Part II of the DAC List was abolished in 2005. The collection of data on official aid and other resource flows to Part II countries ended with 2004 data. Data are in current U.S. dollars.	World Bank - World Development Indicators
